NEWFOUNDLAND AND LABRADOR

Education Pilot Project – Volunteers Needed

The Canadian Cancer Society is piloting an exciting new project out of the Western Region Office in an effort to improve access to, and the understanding of, cancer related information for people living in Newfoundland and Labrador.

We are creating educational programs to be delivered to the general public in the communities of:

- St. Anthony
- Deer Lake
- Corner Brook
- Stephenville
- Burgeo
- Port-aux-Basques

We are recruiting volunteers within these communities to be trained to deliver these presentations that would enhance awareness efforts and improve the understanding of prevention and early detection and screening.

If **YOU** are interested in becoming a volunteer, or for further information, please contact:

Janice Kennedy
