| 4.7-5.0 | • Exceptional evidence of visionary leadership that has enhanced the cancer research ecosystem on a national and international level  
• Exceptional impact on cancer prevention, diagnosis, treatment, care and/or support in the Canadian population and internationally  
• Excellent research productivity, including publications and other outputs, grant funding, training the next generation of researchers and professional contributions  
• Excellent and relevant recognition through honours and awards                                                                                                                                                                                                                                                                 |
| 4.3-4.6 | • Excellent evidence of visionary leadership that has enhanced the cancer research ecosystem on a national and/or international level  
• Excellent impact on cancer prevention, diagnosis, treatment, care and/or support in the Canadian population and/or internationally  
• Very good research productivity, including publications and other outputs, grant funding, training the next generation of researchers and professional contributions  
• Very good and relevant recognition through honours and awards                                                                                                                                                                                                                                                                 |
| 3.9-4.2 | • Very good evidence of leadership that has contributed to the cancer research ecosystem on a national and/or international level  
• Very good impact on cancer prevention, diagnosis, treatment, care and/or support in the Canadian population and/or internationally  
• Good research productivity, including publications and other outputs, grant funding, training the next generation of researchers and professional contributions  
• Good and relevant recognition through honours and awards                                                                                                                                                                                                                                                                 |
| 3.5-3.8 | • Good evidence of leadership that has contributed to the cancer research ecosystem on a national and/or international level  
• Good impact on cancer prevention, diagnosis, treatment, care and/or support in the Canadian population and/or internationally  
• Fair research productivity, including publications and other outputs, grant funding, training the next generation of researchers and professional contributions  
• Fair recognition through honours and awards                                                                                                                                                                                                                                                                 |
| 3.0-3.4*| • Fair evidence of leadership that has contributed to the cancer research ecosystem on a national and/or international level  
• Fair impact on cancer prevention, diagnosis, treatment, care and/or support in the Canadian population and/or internationally  
• Minimal research productivity, including publications and other outputs, grant funding, training the next generation of researchers and professional contributions  
• Minimal recognition through honours and awards                                                                                                                                                                                                                                                                 |
| Below 3.0| • Limited to no evidence of leadership that has contributed to the cancer research ecosystem on a national and/or international level  
• Limited to no impact on cancer prevention, diagnosis, treatment, care and/or support in the Canadian population and/or internationally  
• Limited to no research productivity, including publications and other outputs, grant funding, training the next generation of researchers and professional contributions  
• Limited to no recognition through honours and awards                                                                                                                                                                                                                                                                 |

*Nominees scoring below 3.5 as an average of final scores will not be considered eligible to receive a prize.
