

Green Party Response - Canadian Cancer Society

1) If elected, what public policy will your Party put forward to address the youth vaping epidemic in New Brunswick and reduce tobacco use?

A Green government would raise the minimum age to purchase tobacco and vaping products to 21 years, and ban the sale of flavoured vaping products designed to appeal to children.

2) If elected, will your Party expedite the implementation of the approved and funded New Brunswick Palliative Care Strategy in 2018?

Yes.
