

USE SUNSENSE

Get outdoors and be sun safe

SunSense Certification Checklist

In the Progress Report you will be asked to describe the sun safety activities that are CURRENTLY practiced at your school. This checklist may help you to develop this section of the report.

CURRENTLY at our school....

- Teachers are trained in sun safety and skin cancer prevention
- Sun safety education is included as part of a classroom learning
- Sun safety education is included in school-wide assemblies
- Sun safety reminders are located throughout the school
- Parents/caregivers are provided with information about sun safety and skin cancer prevention
- We participate in Sun Awareness Week
- Sun safety education and practice is ongoing throughout the school year
- We have procedures to remind and ensure students practice sun safety (i.e. remind students to put on hats before going outdoors)
- We have a school board level policy regarding sun safety and shade
- Staff role model positive sun safety behaviour
- We have shaded areas on the school yard
